

NURSERY WEED MANAGEMENT FIELD DAY

This event features on-site demonstrations and will focus on recent research from Dr. Joe Neal's lab exploring the economics and efficacy of weed control strategies in container nurseries. Topics include herbicide efficacy and sensitivity, using mulches for weed control, and new products. Instructors for this event will include Dr. Joe Neal, Weed Science Extension Specialist; Amanda Taylor and Stacey Jones Area Specialized Agents for Nursery and Greenhouse Crops; and Amy Barker, Research and Extension Technician, Department of Horticultural Science, NC State University. Lunch is provided.

North Carolina State University and North Carolina A&T University commit themselves to positive action to secure equal opportunity regardless of race, color, religion, creed, national origin, sex, age, disability, or veteran's status. In addition, the two Universities welcome all persons without regard to sexual orientation. North Carolina State University, North Carolina A&T University, U.S. Department of Agriculture, and local governments cooperating.
