

2019 WESTERN NC GREENHOUSE DIAGNOSTICS WORKSHOP

Join us for an evening of hands-on education featuring researchers and industry professionals from around the region! The Western NC Greenhouse Diagnostics Workshop provides the latest information on the production and management of ornamental plants, including identification of plant pests and their control. **Participants are encouraged to bring plant samples for diagnosis.** Participants will receive 2.5 L, N, O, D, and X pesticide credits.

February 5, 2019

4 to 7 pm

Burke County Agriculture Center
130 Ammons Dr. Morganton, NC

Space is limited. RSVP to the Burke County Extension at 828-764-9480 or amanda_jo_taylor@ncsu.edu by February 1.
